Before I make public the Council of Europe's refusal to respect EU and international law in respect to the right of protest in order to hide Europe's shame and its own complicity in the surveillance and censorship program of the academic environment that I have uncovered, I want to make sure this is the Council's last word on the matter.

Sincerely,

Kevin Galalae

Further to my previous two emails I must insist that you identify yourself. This is crucial for two reasons: first, to establish if you indeed have the authority to speak in the name of the Council of Europe and in violation of EU law; and second, to ensure that I am communicating with a legitimate representative of the Council of Europe and not with a different governmental or legal entity. As you may already know, my electronic communication is being interfered with and I am not always sure if my emails reach their source and if the emails I receive are legitimate.

I must also insist that you explain on whose authority you have denied me the right of protest. I look forward to your reply.

Sincerely,

Kevin Galalae

Further to my previous email I seek clarification from the Council as to why my request was turned down with the wording that the "[Council of Europe premises, including the Court building and its surroundings, may not be used to stage any sort of protest/demonstration of the](#)

kind you mention." What does the Council mean by "the kind you mention"? The Council seems to have placed my peaceful hunger strike in a specific category. If so, what category is this? And why does the Council deem it necessary to deny citizens the exercise of the right to peaceful protest in this specific category of protest?

I would appreciate a speedy reply to this and my previous email since the issues raised strike at the heart of free speech, freedom of conscience, and the right to protest; issues the Council claims jurisdiction over.

Sincerely,

Kevin Galalae

P.S. I would also appreciate it if the person writing to me would identify him/herself. Anonymity is the handmaiden of insincerity¹ and the Council of Europe of all institutions should not give the impression that it acts counter to the interests of truth and justice.

I do not understand how an organization entrusted with safeguarding human rights can deny me the right to protest peacefully. Perhaps you can explain this contradiction. Furthermore, my hunger strike is not intended to "assist the examination of my case" but to enable a political solution to a problem created by Europe's political establishment. I merely seek to draw attention to grave infringements of fundamental rights in the EU and the Council of Europe is the ideal place to do so given its function.

The Council's mandate is, after all, to safeguard legal standards, human rights, democratic development and the rule of law in Europe. The right to protest is enshrined in the European Convention. Be advised that I shall not hesitate to make public the Council's refusal to grant me the right of protest on its premises should the Council persist in this course of action in order to assist Europe in covering up its illegitimate surveillance and censorship program of universities.

If the Council of Europe does not tolerate peaceful protest on its premises, I ask that the Council informs me if there is a designated site for protests in the city of Strasbourg. If not I shall ask permission from the local mosque, which will only underscore the hypocrisy of Europe's institutions and expose the blatant discrimination and double standards that characterise some of its legislation.

I look forward to hearing from you.

¹ In the original the word "ingenuity" appears instead of "insincerity" – a typo that I am now correcting for the sake of clarity.

Sincerely,

Kevin Galalae

Subject: FW: Ask for

Dear Mr Galalae,

With reference to your request of 23 March 2011, you are informed that Council of Europe premises, including the Court building and its surroundings, may not be used to stage any sort of protest/demonstration of the kind you mention. Putting up a shelter such as a tent on these premises is also not permitted. Your attention is further drawn to the fact that such action will in no way assist the examination of your case.

Yours sincerely,

Ask for

Message: **To whom it may concern,**

I request permission to hunger strike in front of the European Court building or, alternatively, on the lawn of the Council of Europe. Since I will be there for as long as it takes, I will need to pitch a tent. For hygiene reasons I will also rent a hotel room nearby to spend the night in if the weather is inclement and to wash.

The objectives of my hunger strike are as follows:

1. To achieve the dissolution of the program of surveillance and censorship (SAC) of the academic environment both at the UK and EU level (for details see ECHR application no. 13386/11, or http://wikispooks.com/wiki/Kevin_Galalae & <http://cryptome.org/0003/great-secret.pdf>).
2. To break the media's cover-up and to activate the institutions of civil society to fulfil their duties in respect to protecting human rights and equality under the law.
3. To obtain justice for my mistreatment and the mistreatment of any and all students who have suffered the same discrimination as I have at the hands of British or European universities as a result of Europe-wide collaboration between the secret service agencies of the EU's member states and its allies.

It is my intention to begin my hunger strike as soon as possible, which is why I would appreciate a speedy reply.

I look forward to hearing from you.

Regards,

Kevin Galalae
